SUMMARY

A passionate Computer Science student with a strong interest in data analysis and data science. Proficient in programming fundamentals, including Python, SQL, and data analysis tools such as Excel and Tableau. Gained hands-on experience during an internship at Bank DKI, where I was involved in data management, financial reporting, and achieving sales targets, which honed my analytical and problem-solving skills. Eager to leverage my knowledge in data processing, statistical analysis, and visualization to deliver actionable insights and support data-driven decision-making. Committed to continuously developing expertise in machine learning, data modeling, and advanced analytics to contribute effectively to data-centric projects.
